Kabaddi Arena — Personal Performance Scout

An Android application built to digitize Kabaddi player performance tracking for local "Matti" (mud) tournament players who currently have no way to document their stats.

App Screenshots

Splash | Match Setup | Live Logger | Performance Card | Stats

Problem Statement

Millions of Kabaddi players competing in local tournaments have no system to track their performance. Players don't know their raid success rate or tackle efficiency. Talented rural players go unnoticed by Pro-Kabaddi scouts simply because they have no documented proof of skill.

Features

Feature	Description
Live Logger	One-tap buttons for Empty Raid, Touch Point, Bonus Point, Super Tackle, Tackle Success
↶ Undo	Instantly reverse accidental taps during fast-paced matches
📊 Success %	Real-time Raid Success % and Tackle Success % calculation
📷 Performance Card	Shareable image card with total points, percentages and badge
🌐 Player Heatmap	Court visual showing raid and tackle zones
📈 Point Graph	Match-wise line chart showing scoring trends over time
Video Link	Attach a Best Raid YouTube link to any match
Room DB	All match history stored locally — works offline
📤 Share	Export Performance Card as image to WhatsApp, Instagram, etc

🔧 Tech Stack

Layer	Technology
Language	Kotlin
IDE	Android Studio
Database	Room DB (SQLite)
Architecture	ViewModel + LiveData
Charts	MPAndroidChart
UI	XML Layouts + Custom Canvas (Heatmap)
Image Export	FileProvider + Android Share Sheet

Layer	Technology
Async	Kotlin Coroutines
How to Run	
1. Clone the repo git clone https://github.com/Rayif18/KabaddiArena.git 2. Open in Android Studio 3. Wait for Gradle sync 4. Run on emulator or physical device (Android 7.0+)	
🔑 Success Criteria Met	
• Live Logger allows undoing an accidental tap • Performance Card is shareable as an image • UI is fast and handles rapid pace of a Kabaddi match	
🌐 Impact Goals	
• Rural Talent Visibility — Shareable stats card gives village players digital proof of skill • Data-Driven Discipline — Players can see their own numbers and train with purpose • Cultural Continuity — Modernizing India's indigenous sport for the next generation	
Developer	
Built as part of MindMatrix VTU Internship Program Android App Development using GenAI
